So why are we doing this in addition to our regular menu? We listened to you. Many of our guests have suggested that we change or expand our menu, so we're trying. Our kitchen size is limited but we think we can pull this off and please your palate and your dining budget.

For the summer months up to Labor Day, many of the menu items we mentioned will be featured as listed, please be advised we can't make every offering listed on the feature days, but we will provide as many as possible to create a variety and value choice for you to stretch your dining dollar.

Thanks for giving us a chance to entertain and serve you, we look forward to seeing you at Brady's again!

Take care and please let us know how we did, your input is what drives our menu decision process.

Take care,

Bob and the staff at Brady's
